RACER2

Built on the cutting-edge RACER technology, the RACER 2 is boosted with all the features users need for finding more coins, relics and jewelry.

RACER 2 will once again fascinate all current and new RACER users with its extraordinary performance and new features such as Notch Filter, Iron Audio, Tone Break, iSAT (Intelligent Self-Adjusting Threshold), advanced discrimination ability as well as its new DEEP mode and waterproof search coil.

Easy to use single menu design

Gain
Adjusts the depth of the device.

Notch Filter
Discriminates single or multiple Target IDs of unwanted metals.

Iron Audio
Turns off or adjusts the volume of the low iron tone.

Tone Break
Adjusts the break points of the target response tones on the Target ID range.

Threshold and iSAT
Intelligent self-adjusting threshold control allows for a smooth and noise-free threshold sound in challenging terrains by avoiding disruption of the threshold in the all metal mode caused by high mineralization.

Audio Tone
Changes the frequency of target and threshold tones (100 Hz-700 Hz).

FD / Save
Easily saves your settings or restores factory defaults.

5 Search Modes
ALL METAL - TWO TONE - THREE TONE - BEACH - DEEP

Ground Balance with 3 Options:
Automatic, Manual, Tracking

Digital Target ID and ID Filtering

Magnetic Mineralization Indicator
Shows mineralization intensity of the ground

Long Battery Life

Extra Features at the Push of a Button:
Frequency Shift, LED Flashlight

High Performance and Unmatched Depth

Advanced Discrimination Ability

Professional Design and Superior Quality

For Challenging Terrains

Optional 2.4 GHz Wireless Headphones

Vibration

LED Flashlight and Backlight

Pinpoint and Depth Indicator
