KEY FEATURES

1. **Ferrous / Gold Non-Ferrous LED Lights**
   Bright color LEDs indicate ferrous or non-ferrous targets

2. **Sensitivity**
   Higher level of adjustment allows the machine to sense targets deeper

3. **Discrimination Filter**
   Helps you reject unwanted targets

4. **iSAT**
   Maintains the steadiness of the Threshold tone in All Metal Mode

5. **iMASK**
   Eliminate false signals caused by ground mineralization or hot rocks

6. **Ground Balance - Auto / Manual**
   Ignore the masking effect that iron ground minerals have over metal targets

7. **Boost**
   Amplify weak detection response for very small / deep targets

8. **Tracking**
   Auto-adjusts ground balance to compensate for ground mineralization changes
